LIGHT-BODIED RED WINES

For these wines with fewer tannins and more subtle flavor, a large bowl and wide mouth allow the wine to breathe, enhancing delicate flavors.

Pair with Beaujolais, Pinot Noir, Sangiovese, Cabernet Franc

FULL AND MEDIUM-BODIED RED WINES

These have the highest tannins resulting in complex flavors. A tall bowl directs the wine to the back of the palate for a richer tasting experience.

Pair with Bordeaux, Cabernet Sauvignon, Merlot, Malbec, Shiraz, Syrah

LIGHT AND MEDIUM-BODIED WHITE WINES

Perfect for lighter, more delicate white wines with less alcohol. A smaller bowl concentrates subtle aromas and directs the wine to the tip of the tongue for better appreciation of sweeter flavors.

Pair with Riesling, Moscato, Pinot Grigio, Pinot Gris, Petit Chablis

FULL-BODIED WHITE WINES

For heavier wines with a fuller body, a wide bowl enhances complex aromas while directing the wine to the back of the tongue, heightening flavor intensity.

Pair with Chardonnay, Sauvignon Blanc, Gewurtztraminer, White Zinfandel

CHAMPAGNE AND SPARKLING WINES

A tall, narrow glass maintains flavor concentration and displays effervescence, enhancing presentation.

Pair with Champagne, Prosecco, Lambrusco

DESSERT WINES

A smaller glass enables proper portioning of these higher alcohol wines. A rounded bowl directs the wine to the back of the mouth, perfecting the sweetness.

Pair with Ice wine, Sauternes, Moscato

PILSNERS

Perfect for serving classic pilsners and other pale lagers, Pilsner glasses showcase a beer's color, clarity and carbonation. The conical shape helps maintain the beer's head, while the narrow design allows the aromas to reach your nose.

GIANT BEERS

Libbey's Giant Beer glasses have a tall stature, providing an exceptionally pleasing presentation for wheat ales and pale lagers. Designed for draft beer service, these glasses feature a rounded top that holds a generous head of foam.

PUB GLASSES

Pub glasses offer the perfect presentation of classic ales, such as IPA, pale ale, brown ale or stout. Featuring a wide mouth to support the frothy head, Pub glasses offer a traditional yet brilliant beer presentation.

TULIP STEMS

Ideal for presenting lambic and saison, the tulip shape also is very well-suited for specialty fruit beers.

STEMWARE

These upscale yet robust glasses elevate your presentation of ales and lagers.

BELGIAN

The rounded bowl of Libbey's Grand Service and Belgian Beer glasses allows for subtle warming of the beer via heat transfer from the hand, while the inward tapering top captures aromas, enhancing the tasting experience.

STEINS AND MUGS

Very large and durable, mugs are ideal for proper serving of Oktoberfest and other dark German lagers.

SPIRITS SERVED NEAT

No. 3502FCP21 shown

A rounded design with heavy base is perfect for swirling “neat” drinks – unmixed spirits served at room temperature – to open up the flavors. The glass narrows at the top to concentrate and enhance the complex aromas.

SPIRITS SERVED ON THE ROCKS

The heavy weight and wide top are perfect for serving the finest spirits on the rocks, the large capacity allowing ample room for ice.

BRANDY/COGNAC STANDARD

A wide bowl creates surface area to help evaporate the liquor and enhance flavor. The narrow top concentrates aromas, and the rounded bottom is ideal for cupping with your hand to warm the brandy.

MARTINI STANDARD

A very wide bowl allows for maximum aromatics (especially the juniper and botanicals in a gin martini). The glass can be held by the stem to prevent warming, and the cone shape keeps ingredients from separating.

MARGARITA STANDARD

A Mexican cocktail made from tequila, orange liqueur and lime juice, margaritas are often rimmed with salt. The stem helps prevent warming the drink, and the very wide top enables an optimal salt-to-drink ratio.

LIQUEUR STANDARD

The small capacity (1-3 oz.) and conical shape is made for serving small amounts of sweet distilled spirits flavored with fruit, herbs, flowers, nuts or spices.

HIGHBALL OR COLLINS

This family of cocktails is made with a base spirit and a non-alcoholic carbonated mixer served with ice, requiring a tall glass for proper proportioning of ingredients.

SPECIALTY GLASSWARE

Whether it’s a signature mojito, frozen cocktail or premium Long Island Iced Tea, specialty glassware is designed to create a powerful presentation of the finest signature cocktails.

TRAINING YOUR STAFF

Empower your staff to handle your fine Master's Reserve glassware carefully and safely. Extend the life of your glass and reduce the potential for injury with these tips:

- Always take glasses to the table by placing them on a tray, **do not carry glasses upside down with the stems between the server's fingers.** Tray placement not only enhances presentation, but minimizes contact between the glasses.
- Always remove glasses from the table by placing them on a tray. Never place them in a bin. **Do not bouquet stemmed glasses or place flatware in glasses** to speed clearing.
- **Do not stack** glasses when storing.
- When serving iced beverages, always use a scoop – **never scoop ice with the glass.**
- Remove ice and allow the glass to reach room temperature before washing to prevent thermal shock.

CLEANING IN A COMMERCIAL DISHWASHER

Master's Reserve is not only elegant, but durable enough for dishwasher care. Minimize spotting, etching and damage by using the following suggestions:

- Select a proper glass rack to suit the glass height and bowl/foot diameter; **avoid contact between individual glasses.**
- Choose a gentle, phosphate-free detergent to minimize spotting.
- Use a commercial-grade dishwasher that filters water by reverse osmosis

or de-ionization to minimize mineral deposits that cause spotting.

- **Follow your dishwasher care and maintenance manual.**

HAND-WASHING

If you choose to hand-wash your Master's Reserve glassware, ensure a sparkling presentation by following these recommendations for hand-washing care:

- **Hold glass by the stem near the base of the bowl, not the foot.**
- Use a handled brush to clean inside the bowl.
- Choose a gentle, phosphate-free detergent.
- Rinse with water filtered by reverse osmosis or de-ionization to minimize spotting.
- When using a behind-the-bar system, follow the manufacturer's instructions.

DRYING AND POLISHING

Present glass that shines! Follow these select methods for an optimal customer experience and an enduring glass life:

- **Don't put your hand inside the bowl** of a glass when drying or polishing.
- When drying, hold the glass by its stem near the base of the bowl, not by the foot.
- With a microfiber or lint-free cloth, dry the inside of the bowl, then dry the sides and stem working your way to the bottom, finish patting the glass dry at the bottom of the foot.
- If possible, dry glass immediately after wash/rinse to minimize the need to polish.
- When polishing, use the same grip on the glass as when drying, wrap a slightly moist cloth around a handled brush and rotate the brush around the inside of the bowl. **Do not torque/ twist the glass;** hold it steady as the brush is in motion.

DINNERWARE ATTRIBUTES AND WARRANTIES

EVERY DETAIL MATTERS

Below each pattern name, you will find each product is listed with key design features, defined below, that can enhance the durability of your dinnerware.

Fully Vitrified: Products are fired at temperatures greater than 2300°F to achieve a stronger and harder material that minimizes absorption of moisture, odor and bacteria.

Fully Vitrified with Microban® Technology: Microban technology* is integrated into the fully vitrified glaze, for an additional level of defense that will never wash off. It creates an inhospitable environment for microbes to help prevent them from growing on the surface.

Polished Foot: Smooth foot helps to reduce plate-to-plate surface scratching.

Highly Polished Foot: Achieves a greater degree of scratch resistance.

Glazed Foot: The highest level of durability, ensuring virtually no plate-to-plate surface scratching.
